

## ENVIRONMENTAL POLICY STATEMENT

As the Northern Territory's premier environmental consultants EcOz recognises the importance of safeguarding the environment through our own actions and through promoting environmental care and responsibilities to our clients.

### EcOz' Environmental Policy is to:

- To comply with all environmental laws and regulations;
- To conduct our business in a manner that demonstrates respect for the environment;
- To consult and cooperate with our clients as well as federal, state and local governments in analysing and communicating emerging environmental issues;
- To provide value-for-money, innovative and scientifically based solutions to environmental problems;
- To encourage the use, development and advancement of new technology and scientific knowledge that inherently provides for improvement in the quality of the environment and prevention of pollution;
- To respond quickly and effectively to environmental incidents involving equipment or products under our control;
- To maintain effective environmental procedures and equipment, consistent with available technology;
- To provide all employees with access to training and professional development opportunities that emphasise individual responsibilities for sound environmental management and the maintenance of professional standards in the provision of environmental consultancy services; and
- To implement a continuous program of monitoring, review and improvement to maintain compliance with EcOz' policies and government requirements.

### IMPLEMENTATION AND REVIEW

Policy implemented 01/06/2016

Policy to be reviewed on or by 31/05/2018
